FRAMELESS CABINET SPECIFICATION

AID GROUP
ICC
INDOCHINE CABINETRY
SINCE 2007

Drawer face
solid OAK with oak veneer

Shelf Panel
3/4" thick plywood

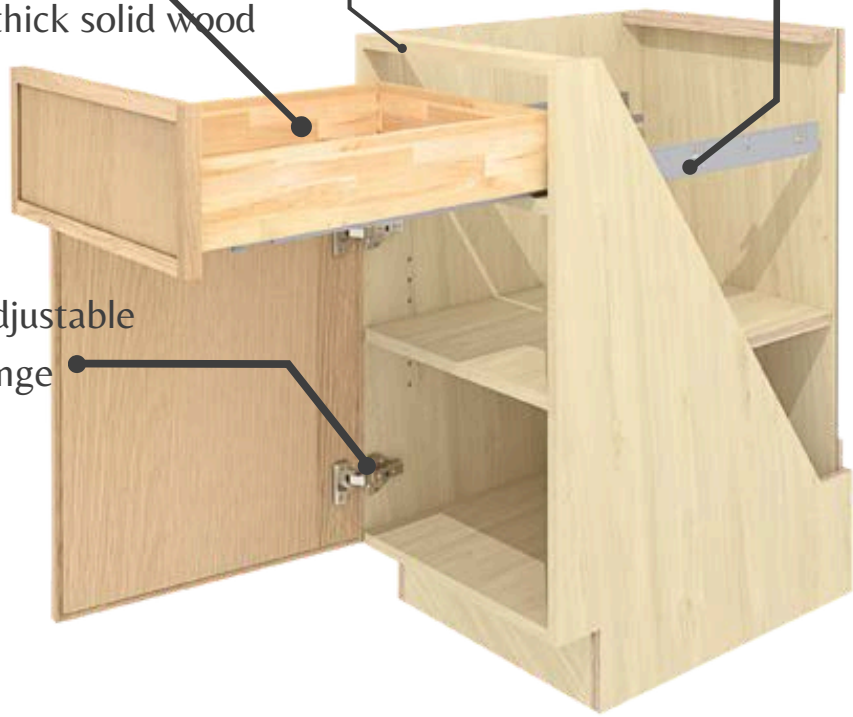

Silde/ Rail/ Bottom Panels
3/4" thick plywood

Slim Shaker Door
Solid oak frame
with oak veneer center panel

PVC edge banding

DTC undermount
soft closing slide

Drawer Box
3/4" thick solid wood

DTC 6 way adjustable
soft closing hinge

The panel materials comply with CARB Phase 2 and EPA standards, the wood materials comply with the Lacey Act requirements, and the construction meets KCMA standards.

BASE CABINET

B09/B12/B15/B18/B21/B24S/B24/B27/B30/B33/B36/B42

DOOR:

Featuring a slim shaker profile with a refined 3/4-inch door frame, this style combines a white oak-veneered plywood center panel and classic mortise-and-tenon construction for lasting strength and elegance. Available in two timeless finishes: Creamy White and Natural Oak.

CARCASE:

Our cabinet boxes are built with premium-grade plywood(3/4" thickness), finished with a waterproof melamine laminate for enhanced durability and a clean, modern appearance. (HARDWARE INCLUDED)

DRAWER BOX:

Built from 3/4" solid wood and reinforced with precision dovetail joinery, our drawer boxes feature a clear water-resistant finish that protects against moisture. Combined with soft-close undermount glides, they offer a seamless, quiet, and premium user experience.

STRONG& ADJUSTABLE:

Built with dowel joints and wood screws for solid strength. Hinges and slides are easy to adjust with basic tools. View more models and assembly videos by scanning the QR code.
