About Us

Indochine Cabinetry is a Vietnam-based cabinet brand specializing in ODM design. Established in 2007, we provide OEM manufacturing services for renowned cabinet brands worldwide. With 17 years of technical refinement and experience, we now offer high-quality custom cabinet design, production, and advertising and marketing services. Our main product lines include INSET CABINETS, FULL OVERLAY CABINETS, and EURO FRAMELESS CABINETS. Materials used include HARD MAPLE, WHITE OAK, RED OAK, BEECH, BIRCH, RUBBERWOOD, MIDI, etc. Colors can be customized according to customer requirements.

We not only provide RTA cabinets, but also help our clients build their brands, design websites and product catalogue, and offer big data analytics to support their marketing efforts

ODM SERVICE

The Indochine team provides fully customized cabinet services, offering comprehensive solutions ranging from product design and marketing planning to warehouse layout and website design.

Indochine's partner factory, AID&LIV, brings 17 years of professional experience in RTA cabinet manufacturing. Equipped with advanced machinery, precision router bits, and Cefla automated spraying systems, it provides a solid foundation for consistent product quality.

Avaliable Melamine Paper

Melamine paper is available in a variety of designs and patterns, including wood grains, solid colors, marble patterns, and fancy design and abstract designs. It can be used to replicate the look of natural materials, such as wood or stone, or to create a more modern, abstract look. The designs of melamine paper lamination paper are created through a printing process that applies ink or dye to the surface of the raw color-based paper. The decorative paper is then cured under heat and pressure to create a durable, decorative surface.
